### **DETAILED ACTION**

- This action is responsive to the Appeal Brief filed on June 6, 2006.
- Claims 1-14 are pending.

#### ***Terminal Disclaimer***

The examiner acknowledges the terminal disclaimer, filed August 14, 2006, to obviate a provisional double patenting rejection over pending application 10/024727, filed December 21, 2001.

#### ***Response to Arguments***

Applicant's arguments, see Appeal Brief, filed June 6, 2006, with respect claims 1-14 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

For the record, however, the examiner disagrees with the applicant regarding Remarks on page 10 of the Appeal Brief, wherein the applicant states Smith '021 teaches "vivid color" that is a HMS type color map, referring to the "Harlequin Micro Screening" screening method. It is clearly shown in fig 9, element #82 of Smith, that HMS type color map refers to a "Hue-Control Machine Space".

#### ***Allowable Subject Matter***

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 8 of the current application teaches similar subject matter as the prior art of Smith et al. (US 5704021) and Dermer (US 5668931). However, claims 1 and 8 are allowed for the reasons pointed out by Applicant's remarks on page 9, paragraph 2, wherein the applicant argues that selecting a print color control or a halftoning option in Smith '021 is a printer dependent print process.

It follows that dependent claims 2-7 and 9-14 are inherently allowable for depending on an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for teaching similar subject matter:

Coleman (US 20030117637),

Coleman (US 20030121007), and

Coleman (US 7085000).
